2 Joining an Event

After you've logged in, if you were sent an event link, you're brought to the unique event page!

Here, you can see all the details of the event, and you can easily copy the URL and tell all your friends.

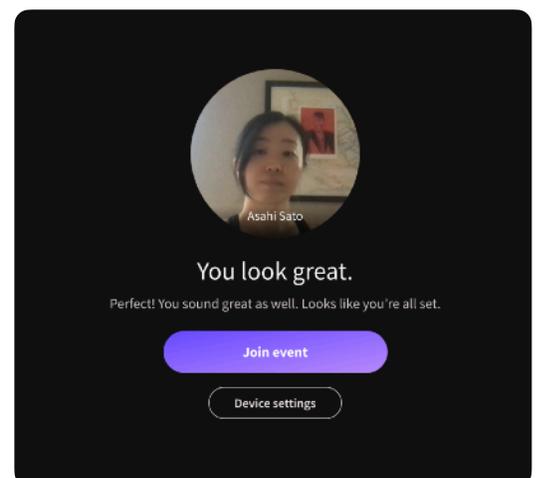

The space will open up 30 minutes prior to the scheduled start of the event. To enter the space, all you have to do is click the "Join the event" button.

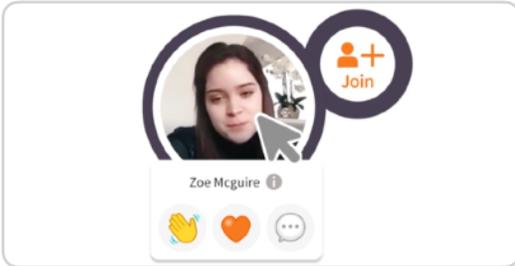

3 Camera & Audio check

In order to enter the space, you have to click "Allow" and grant Toucan permission to use your camera and microphone...otherwise, how will you speak to anybody?

You can select "Device settings" if you would like to change what microphone, headset, or camera you are using. Once you think you're all set, click the "Join event" button, and you will enter into the Toucan space. Enjoy!
